

### **Swedish Warmblood**

"Internationally competitive horses in dressage, show jumping or eventing"

65,000 horses 4,000 covered mares (2016)

#### based on results from

Show jumping & Dressage competition

Young horse tests (3- & 4-year-old horses evaluated for conformation, jumping & dressage)

## **Test for 3-year-old horses**

Introduced in 1999

40% of all 3-year-olds (18,000 horses)

8 evaluating traits: conformation, gaits, jumping – scale 1-10

Included in annual genetic evaluation since 2006

Linear profiling protocol introduced in 2013 50 *describing* traits for 3,410 horses (until today)

## **Linear profiling protocol**

#### 21 conformation traits

LI	Linear profile				Height of withers		
	CONFORMATION	Obvious	Average		Obvious	Comment	
			A B C D E F G	ΗI			
1	Type	refined (i.e. light)		□ □ he	avy	good proportions	
2	Body: shape a	long		□ □ sh	ort		
3	Body: shape b	long legged			ort legged		
4	Body direction	uphill		□ □ do	ownhill		
5	Length of neck	long		□ □ sh	ort	☐ wide connection	
6	Position of neck	vertical		□ □ hc	orizontal	low connection	
7	Shape of neck	arched	0 00 000 0	□ □ str	raight	heavy head-neck connection	
8	Withers	high		□ □ lo	w		
9	Position of shoulder	sloping		□ □ str	raight	deep chest	
10	Line of back	straight		□ □ sw	vayback		
11	Loins	long		□ □ sh	iort	roached back	
12	Shape of croup	sloping		□ □ str	raight		
13	Length of croup	long		□ □ sh	ort		
14	Foreleg	over at knee		□ □ ba	ack at knee	☐ tied in ☐paral displ can ☐ misplaced cannon bone	
15	Foreleg	toed in	0 00 000 0	□ □ to	ed out	thin legs in prop.to body outward rotated forelin	
16	Pastern, front	upright			eak	□ long □ short	
17	Hind leg	sickle		□ □ str	raight	☐ tied in	
18	Hind leg	cow hocked		□ □ bc	owlegged		
19	Pastern, hind	upright		□ □ w	eak	□ long □ short	
20	Correctness in movement	winging		□ □ pa	ddling		

# **Linear profiling protocol**

#### 15 movement traits

	MOVEMENT	Obvious	Average	Obvious	Comment
			A B C D E F G H I		
22	Walk: cadence	even		uneven	
23	Walk: stride length	long		short	
24	Walk: suppleness	supple		stiff	
25	Walk: elasticity	elastic		unelastic	
26	Trot: length of stride	long		short	☐ irregular
27	Trot: elasticity	elastic		unelastic	movement tight to the ground
28	foreleg activity	shoulder free		Short	
29	Trot: hind leg position	under the body		behind the body	
30	Trot: hind leg activity	active		Inactive	
31	Canter: rhythm	even		Uneven	
32	Canter: stride length	Long		Short	
33	Canter: action	round		Flat	
34	Canter: elasticity	elastic		stiff	
35	Canter: balance	well balanced		unbalanced	
36	Movement: direction	uphill		downhill	

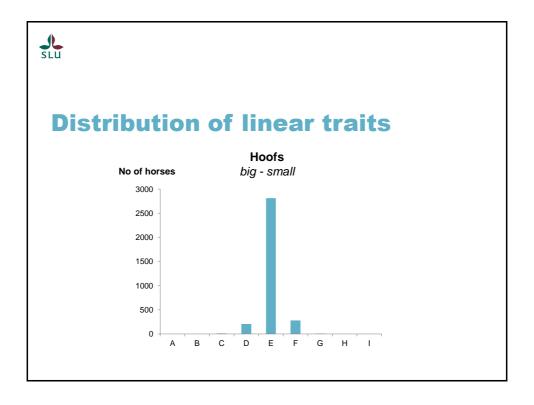

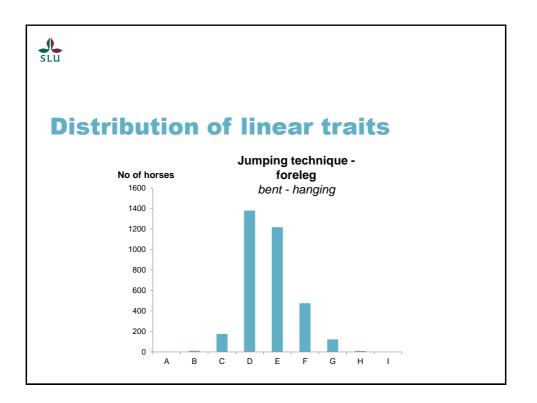

# **Linear profiling protocol**

### 14 jumping traits

	JUMPING	Obvious	Average	Obvious	Comment
			A B C D E F G H I		
37	Take off	powerful		weak	
38	Take off: quickness	quick		slow	
39	Take off: direction	upwards		forwards	
40	Technique: foreleg	bent		hanging	☐ under the body ☐ stretched out
41	Technique: back	rounded		hollow	
42	Technique: haunches	open		tight	
43	Scope	much		little	
44	Elasticity	elastic		stiff	
45	Care	too careful		not careful	
46	Distance estimation	secure		insecure	
47	Balance	balanced		unbalanced	
48	Reaction	quick		slow	
49	Approach to assign.	focused		unfocused	
50	Behaviour	relaxed		tense	

## **Publishing breeding values**

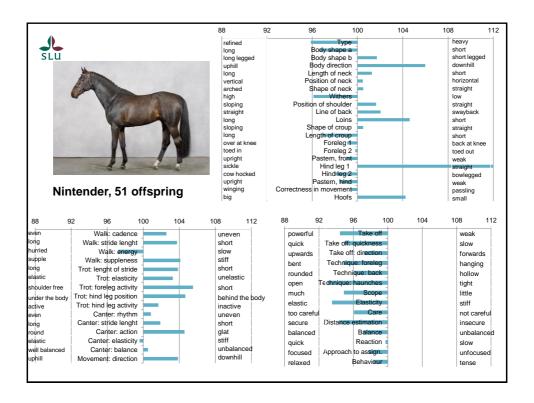

name it genetic profile/linear profile?

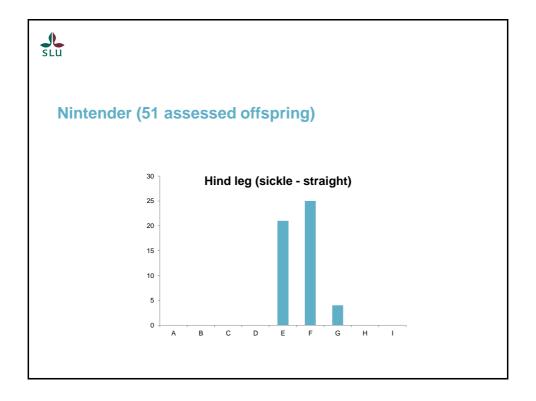

**100** = average of all assessed horses (no numbers only bars?!)

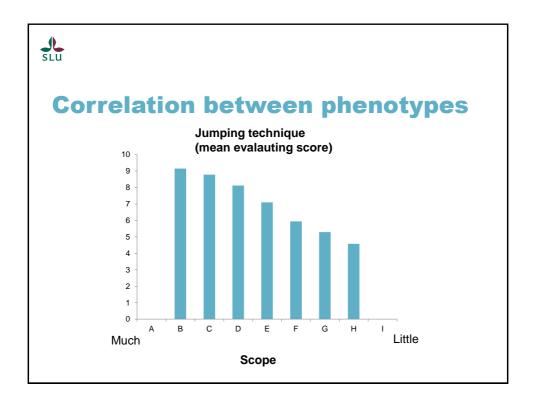

Genetic standard deviation of 4 units

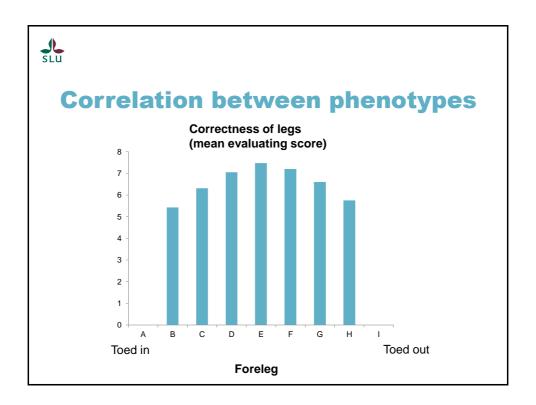

Same direction of scale as protcol?

Accuracy – SE (in units) or  $r_{TI}$ ? Levels of accuracy instead of numbers?

## **Conclusions**

Possible to estimate EBVs

Good complement to traditional scoring

Useful for breeders

Implementation?

International collaboration (OLD-SWB)
